

So Simple.
So Sophisticated.

GelShot™

Therapeutic Ultrasound Coupling Discs

Rehab Infection Prevention

Eliminates Risk of Cross Contamination
Associated with Bulk Gel Containers with
Single-Patient Use Gel Discs

No Mess Ultrasound Treatments

No Patient Cleanup Eliminates Additional
Laundering

More Effective Treatment

360 Degrees of Mobility for Optimum Coupling
with No Gel Displacement

Easy to Use

Insert GelShot into Adaptor Well, Spray with
Water, Begin Treatment

Better Contact...Better Outcomes

Flawless Coupling that Results in Over 40%
Increase in Tissue Temperature*

Available in 2cm, 5cm, and 10cm sizes.
