

LIDO · FLEX™

TARGETING YOUR RELIEF

4% LIDOCAINE
PAIN RELIEVING PATCH

TARGETED, EASY-TO-USE, PAIN PATCH TECHNOLOGY

- Lidocaine is one of the most widely used medications for the treatment of mild to moderate pain
- LidoFlex's unique pain patch design is flexible and versatile enough to cover the unique contours of the lower limbs
- Non-systemic, LidoFlex pain patches target 100% of the medication directly to area in need
- Non-habit forming, LidoFlex pain patches contain no opioids with none of the potential side effects associated with narcotics and other prescription medications
- LidoFlex patches provide 8-12 hours of pain relief, and can be worn up to three times per day
- Unlike counterirritants, LidoFlex is an anesthetic numbing agent that stops the transmission of pain to the brain
- Creates an attractive ROI as an annuity-based product
- Designed to be worn during ADL's, as well as exercise and showering with no unfavorable smell or greasy residue
